

Classroom Newsletter

PV International School, July 2020

We believe the best way of Early Childhood Education should be PV International School.

We will focus on cooperation, sharing and helping others.

We will encourage the children to share their thoughts and ideas through language enriched activities.

P Class -P class concentrated on healthy, unhealthy habits and food choices. Everyone trained their vocabulary for vegetables, fruits, other food groups and sport activities. We also reviewed other topics and talk a lot about activities or places one goes to during summertime. Besides that, we also focus on writing and reading. -Diana-

ミュージック
海の日
スポーツの日
誕生会

V Class In the month of June, V class students reviewed and learned different food vocabulary. In lessons we talked about healthy eating and junk food. Kids started scissors practice and tried story sequencing activity, too. Children are very proud to be class leaders when it's their turn and they know their duties. -Rita-

I Class -Hello there! This month I class have been studying vocabulary from each letter of the Alphabet and creating a crafts in each lessons to make an Alphabet books. As well as this, they have been enjoying music lessons by singing and dancing! -Jazzy-

Hi! I'm Yuki. This is the first time to introduce myself. I am an assistant in PV international school. I started to work at here from last year, but since I graduated University this spring, I started to work at here everyday. I was born in Thailand and I spend my life at there with going to International school. I'm so happy to spend everyday life with children in PV! If you have something to talk about school, even a tiny thing, please ask me.
